Hospital

Desk signs, at point of service locations, can be used to expediate service, give direction and identify staff.

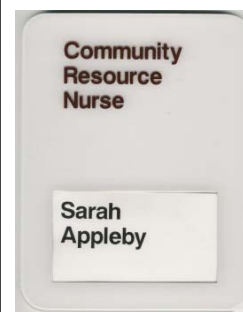

Wooden plaque with inset slider lets others know when the room is occupied.

Standard service door and safety signage. Available with braille, dimensional symbols and text.

Wayfinding and directional signage. Constructed of sintra with vinyl legends. Ceiling or wall mounted, these large signs are used to direct the public to important areas of the hospital.

7"x9" Insert Sign Standard for room identification. Plexiglass and vinyl construction, with paper insert, allows user to change name label as occupants or room function changes.
